[Microsoft Office 2016 VL RUS-ENG \(x86-x64\) Advanced \(AIO\) By M0n Utorrent](#)

The screenshot displays the Microsoft Visio Professional 2016 software interface. The title bar reads "Документ1 - Visio профессиональный". The ribbon includes tabs for "Файл", "Главная", "Вставка", "Конструктор", "Данные", "Процесс", "Рецензирование", "Вид", and "ФУНКЦИОНАЛЬНАЯ БЛОК-СХЕМА". The "ФУНКЦИОНАЛЬНАЯ БЛОК-СХЕМА" ribbon is active, showing tools for "Указатель", "Соединительная линия", "Текст", "Инструменты", "Стили фигур", "Упорядочение", and "Редактирование".

The main workspace shows a functional block diagram titled "Диаграмма функциональной блок-схемы". The diagram is organized into four columns labeled "Функция 1", "Функция 2", "Функция 3", and "Функция 4". It starts with a "Начало" (Start) oval in Function 1, leading to a "Решение" (Decision) diamond. From the decision, paths lead to "Процесс" (Process) rectangles in Functions 2, 3, and 4. A second "Решение" diamond is located in Function 2, with a "Может быть" (Maybe) path leading to a "Процесс" rectangle in Function 3. The diagram concludes with a "Конеч" (End) oval in Function 4.

On the left, the "Фигуры" (Shapes) task pane is open, showing "НАБОРЫ ЭЛЕМЕНТОВ" (Shape Sets) and "ПОИСК" (Search). The "Фигуры функциональной блок-схемы" (Functional Block Diagram Shapes) set is selected, displaying "Дорожка" (Flow Line) and "Разделитель" (Separator) options.

On the right, the "Тема" (Theme) task pane is open, showing "Тема" (Theme), "Перетаскивание" (Dragging), and "Добавление дорожки" (Adding Flow Line) sections. The "Добавление дорожки" section includes a tip: "Чтобы добавить дополнительную дорожку, перетащите ее из панели фигур в соответствующее расположение." (To add an additional flow line, drag it from the shapes task pane to the appropriate location.)

The status bar at the bottom indicates "Страница-1" (Page 1), "Все" (All), and a zoom level of "66%".
